

---

Savage Seas shallow bay model was created from years of research and detailed computer renderings to provide the customer a vessel with incredible strength, stability and safety. This research came from a consortium of engineers, naval architects and builders. Upon confirmation of a design, we asked boat captains, industry leaders, etc. for their input to provide the most efficient layout for ease of use and access.

### Specifications:

Length	22'
Beam	8'2"
Deck Space	162 sq/ft (approx)
Fuel	Twin 35 gallon tanks
Range	280-350 NM
Gear Weight	573 lb
Weight	3500 lbs with motor
Capacity	12 people or 1800 lbs
Maximum Horsepower	250
Running Draft	3-5"
Idle Draft	8-10"

### Additional Features:

- Sink resistant
- Environmentally Friendly
- Incredible stability
- Impact Resistant
- Operational simplicity
- Exceptional Storage
- 3 Insulated Live Well Tanks
- Frigid Rigid Cooler

**Built by Captains, for Captains.**
